

Contents

Module 7 Identify Design Elements

Identify Design Elements Overview	7-4
Identifying Design Classes	7-8
Identifying Interfaces.....	7-28
Identify Reuse Opportunities.....	7-36
Layering Considerations	7-41
Review	7-55

Module 8 Identify Design Mechanisms

Identify Design Mechanisms Overview	8-4
What Is a Design Pattern?	8-8
Describing Analysis Mechanisms	8-16
What Is a Combined Fragment?	8-26
Review	8-34

Module 9 Describe the Run-Time Architecture

Describe the Run-time Architecture Overview.....	9-4
What Is Concurrency?.....	9-6
Identifying Processes and Threads	9-15
Creating and Destroying Processes and Threads	9-19
Mapping Processes onto the Implementation	9-22
Design Elements-to-Processes Strategies	9-26
Review	9-32

Module 10 Describe Distribution

Describe Distribution Overview	10-4
The Network Configuration.....	10-15
Process-to-Node Allocation Considerations	10-20
What is Deployment?	10-22
Distribution Mechanism.....	10-29
Review	10-38
